Background:

- ALTA members need to know:
 - Does my company need to comply with the California Consumer Privacy Act (CCPA) as it exists today?
 - If my company must comply, what do we need to be thinking about as the 1/1/2020 effective date approaches?
- As state and federal legislation on data privacy is introduced, ALTA needs:
 - Industry experts to analyze and evaluate the impact of legislation specifically on the title industry.
 - Industry principles to help guide policy development and address data privacy in a global way.
 - Privacy Law to be given the thoughtful consideration it deserves, distinct and separate from other issues.

Committee Purpose and Scope:

- Help ALTA members understand the impact of, and comply with if required, comprehensive laws related to data privacy, including the California Consumer Privacy Act (CCPA), by providing tools and resources.
- Develop industry principles regarding federal or state comprehensive data privacy legislation or regulation.
- Collaborate with industry partners on data privacy related advocacy efforts.
