

## BIO

Passionate, committed and positively engaged, my name is Stephanie Fullerton and I am the co-founder of Streamline Consulting. With over 20 years in the Real Estate industry, predominantly in the title insurance realm, I have performed title and escrow functions for various title companies both in the residential and commercial arenas. When I decided to transition into a slightly different, yet somewhat related direction, I became employed at a production software company with a national customer base. I was involved in everything from technical support and documentation to training and roll-outs. Shortly after leaving that company, I acknowledged an opportunity in the industry with title companies who required help in facilitating the changes needed within their organizations. Sometimes it's a matter of needing resources, sometimes it's a matter of needing answers and that was something I knew I would be able to assist with. Combining my experience and a desire to help empower others has afforded me the opportunity to do what I love every day.

My business experience is summarized as follows: Project Manager in a real estate asset management company; Title Processor responsible for creating both commitments and policies; Commercial Escrow Officer; Vice President of the commercial division of a national builder title agency; Residential Branch Manager of a national title agency; Support Tech and Trainer at a national production software provider. This experience is drawn from to handle the diverse needs of each of our clients and to operate Streamline successfully and effectively.

~Stephanie Fullerton
