# ALTA Registry Committee – 2023 Enhancement list Proposals

Proposed 2023 Enhancements			
Defined Attribute	Attribute type	Programming load	Status
Move the RON Ready indicator to outside the 'paywall', for viewing in anonymous searches	Modification of existing code	Easy	Note this was a simple programming change and was implemented on 10/19/2022.
Additional role/user types to enable agent to agent E&O data viewing	New code	More research needed	Pending Committee decision to proceed
Create tool for agents to simply email a link directly to their E&O data to requestors. Include the ability to embed a button/URL in email	New code	More research needed	Pending Committee decision to proceed
Adding new doc type fidelity or surety bond as a document type to the E&O Project.	Modification of existing code	Easy	Pending Committee decision to proceed
Add attribute: Different languages spoken at locations	Repurpose existing code for new function	Easy	Pending Committee decision to proceed
Service type available from locations e.g.: Searches, Settlement, Attorney Letters (Not AOL) but mee UPL, and eRecording capability-county level.	New code	Easy	Pending Committee decision to proceed
Addition of agent specific fee sheets.	New code	Difficult	In conversation the Committee determined this may be infringing on various platform providers and the Registry is not a 'pingable' data source.
Add button within the RMS for agent-to-agent request for fees.	New code	Moderate	Pending Committee decision to proceed
ALTA Best Practices Icon	Repurpose existing code for new function	Easy	Pending Committee decision to proceed + in discussions with Best Practices Committee leadership for guidance
