DIRECTORY NUMBER

The membership of the American Title Association represents the titlemen of the various states interested in the advancement and development of their business in order that the most efficient, speedy and satisfactory evidences of title and service in title work may be available.

The successful consummation of every real estate deal is dependent upon the condition of the title and its showing. The titelman and his work therefore are the keystone of every deal.

**IF IT IS TITLE WORK, THE MOST EFFICIENT,
RELIABLE AND RESPONSIBLE SERVICE CAN BE
SECURED FROM THOSE LISTED IN THE PAGES
FOLLOWING.**

Our Title Men

Live By This Code of Ethics

This is the code of ethics which actuates the members of our association. It outlines a course of conduct which our clients can expect from every one of us:

First:—We believe that the foundation of success in business is embodied in the idea of service, and that Title Men should consider first, the needs of their customers, and second the remuneration to be considered.

Second:—Accuracy being absolutely essential in the examination of titles, Title Men should so arrange their records as to eliminate the possibility of mistakes.

Third:—Ever striving to elevate the title business to a plane of the highest standing in the business and professional world, the Title Man will always stand sponsor for his work and make good any loss, occasioned by his error, without invoking legal technicalities as a defense.

Fourth:—The examination of title being to a large extent a personal undertaking, Title Men should at all times remember that fact, and endeavor to obtain and hold a reputation for honesty, promptness and accuracy.

Fifth:—The principal part of business, coming from real estate dealers, lenders of money and lawyers, it is obvious that relations with these men should at all times be friendly. To further this friendship we declare ourselves willing to aid them in all ways possible in meeting and solving the problems that confront them.

Sixth:—We believe that every Title Man should have a lively and loyal interest in all that relates to the civic welfare of his community, and that he should join and support the local civic commercial bodies.
