Banff

and Lake Louise

*in the heart of
America's Alps*

"Castle in the air" is Banff's magnificent new hotel, enthroned on a crag overlooking the spectacular Bow Valley.

"Shrine to Beauty" is Chateau Lake Louise, kneeling in golden poppies beside the loveliest picture in all the world.

Here the smart and great of two continents come to play in soul-expanding grandeur. Banff has the warm sulphur baths, the newly remodelled golf course. Lake Louise has the glaciers and tea houses in the clouds. Both have tennis, swimming, boating, dancing, thrilling motor and trail trips.

Some prefer Banff, some like Lake Louise. Most people stop at both—that is, they do if they make reservations early enough. It's time now. Full information from

When a Man's in a Real Hurry

—he wants SERVICE—service at any cost.

So it is with every abstracter when his "bread-and-butter" client dashes in with an abstract that must be gotten out "sooner than quick."

And here's where we come in. Our specially equipped plant and years of experience in the printing of abstracts have enabled many an abstracter to satisfy his clients' desires for speed without sacrificing one iota of accuracy. And the surprising part is that the cost is actually less than others charge.

We can help you to meet these "rush" requirements, too. If you'll just tell us your needs, we'll be glad to quote prices and send samples of our work.

The American Title Association

founded in 1907, is the national association of individuals and companies engaged in title work.

Its membership is composed of responsible and established abstracters, title insurance companies and attorneys who specialize in title law and examination of land titles.

The evidencing of land titles is a highly important matter and calls for skill, efficiency and facilities for rendering prompt, dependable service.

THIS KIND OF SERVICE CAN BE SECURED BY PATRONIZING MEMBERS OF THE AMERICAN TITLE ASSOCIATION.

Our Membership

represents the titlemen of the various states interested in the advancement and development of their business in order that the most efficient, speedy and satisfactory evidences of title and service in title work may be made available.

The successful consummation of every real estate deal is dependent upon the condition of the title and its showing. The titleman and his work are the keystone of every deal.

The titlemen are the book-keepers and guardians of the real property rights of a community.

IF IT IS TITLE WORK, THE MOST EFFICIENT, RELIABLE AND RESPONSIBLE SERVICE CAN BE SECURED FROM THOSE HEREIN LISTED.

“The Title’s The Thing”

Land is only dirt worth so much the load. When real estate is purchased, it is the title that is bought, and its condition governs how one may use, own, occupy or dispose of the premises. When money is loaned upon real estate as security, the title is the measure of the safety behind the investment.

The chief concern of every purchaser or investor should be more in the title than in the land itself. Those supervising transactions for others should see that their clients are afforded every precaution and protection. One has no recourse if he fails to ascertain the character and validity of the title to the land he purchases and later suffers a loss because of the claims and rights of others not learned in advance.

Our Title Men

Live By This Code of Ethics

This is the code of ethics which actuates the members of our association. It outlines a course of conduct which our clients can expect from every one of us:

FIRST:—We believe that the foundation of success in business is embodied in the idea of service, and that Title Men should consider first, the needs of their customers, and second the remuneration to be considered.

SECOND:—Accuracy being absolutely essential in the examination of titles, Title Men should so arrange their records as to eliminate the possibility of mistakes.

THIRD:—Ever striving to elevate the title business to a plane of the highest standing in the business and professional world, the Title Man will always stand sponsor for his work and make good any loss, occasioned by his error, without invoking legal technicalities as a defense.

FOURTH:—The examination of title being to a large extent a personal undertaking, Title Men should at all times remember that fact, and endeavor to obtain and hold a reputation for honesty, promptness and accuracy.

FIFTH:—The principal part of business, coming from real estate dealers, lenders of money and lawyers, it is obvious that relations with these men should at all times be friendly. To further this friendship we declare ourselves willing to aid them in all ways possible in meeting and solving the problems that confront them.

SIXTH:—We believe that every Title Man should have a lively and loyal interest in all that relates to the civic welfare of his community, and that he should join and support the local civic commercial bodies.
